

Erasmus Teamwork

Erasmus+

www.lycee-mirepoix.fr

What is Teamwork?

Teamwork is necessary in a group, it is crucial to work with teammate to build big project.

The name of our project is Energy Universal Language Of the Sun and our team is made of Garbin's students and Mirepoix's students.

The difference between the groupwork and the teamwork is that in the first the goal is individual and in the second, the goal is the same for all.

Our goal

Our goal is to make a solar car for the solar challenge who will take place in Toulouse, on May 25th. For this, we create an electric car by ourselves. It works with electricity and with solar panels.

Our goal is this

A solar car

In this photo, we are with our Italian's friends when visiting the Ferrari Museum.

Together we are stronger

It was a pleasure, we built a strong friendship and we are team.
